Maximum Marks	2 Marks

Problem – Solution Fit :

Problem-Solution Fit means the team has found a real customer problem and that the solution genuinely solves it. The canvas below maps the ShopEZ problem onto its solution across the standard building blocks.

Problem-Solution Fit means the team has found a real customer problem and that the solution genuinely solves it. The canvas below maps the ShopEZ problem onto its solution across the standard building blocks.

Purpose

- Solve the problem in a way that fits the customer's real situation.
- Increase adoption by using familiar online shopping behaviour and channels.
- Build trust by solving the frequent, urgent annoyance of slow, unsafe shopping.
- Understand the existing situation in order to improve it for the target group.

Define CS, fit into CL	1. CUSTOMER SEGMENT(S) CS - Online shoppers who prefer convenience - College students looking for affordable products - Working professionals with busy schedules - Families shopping for daily essentials - Tech-savvy users who shop on mobile - First-time online buyers - Return customers seeking trusted platform	6. CUSTOMER LIMITATIONS CL EG. BUDGET, DEVICES - Limited time to browse and shop - Budget constraints and price sensitivity - Lack of product knowledge - Difficulty trusting unknown websites - Concerns about online payment safety - Limited access to good internet or devices - Uncertainty about return and refund process	5. AVAILABLE SOLUTIONS AS PROS & CONS Existing Solutions: - Amazon - Flipkart - Myntra - Meesho - Snapdeal - Local markets and stores Limitations: - Overwhelming choices - Complex return process - High delivery charges - Fake or misleading reviews - No personalized experience - Delayed deliveries	Explore AS, differentiate
	2. PROBLEMS / PAINS PR + ITS FREQUENCY - Hard to find the right product quickly - Poor product search and filtering - Unclear product descriptions and specs - Complicated checkout with many steps - Unexpected extra charges - Delivery delays - No real-time order tracking - Difficult to manage orders and returns - Lack of personalized recommendations	9. PROBLEM ROOT / CAUSE RC - Poorly structured product data - Inefficient search and recommendation engine - Complex and cluttered website flow - Lack of user-centric design - No centralized order and inventory management - Limited automation in order tracking - Inadequate customer support - Lack of data-driven insights	7. BEHAVIOR BE + ITS INTENSITY - Search for products online - Compare prices and read reviews - Add items to wishlist or cart - Look for coupons and offers - Complete secure payment - Track orders and check delivery status - Share reviews and feedback	Focus on PR, tap into BE, understand RC
Identify strong TR & EM	3. TRIGGERS TO ACT TR - Need for a product or service - Discounts, sales and promotions - Recommendations from friends/family - Social media ads and influencer posts - Festive seasons and special events - Better convenience and offers	10. YOUR SOLUTION SL ShopEZ – A MERN Stack E-Commerce Platform that provides a simple, secure and personalized shopping experience. Key Features: - User authentication (Login / Register) - Browse products with category & search filters - Advanced search and price sorting - Add to cart and wishlist - Buy Now and secure checkout - Multiple payment options - Order tracking and order history - User profile management - Personalized recommendations (Top Selling) - Admin dashboard for product, order & banner management ShopEZ solves the core problems of online shoppers by offering an easy, reliable and trusted shopping experience.	8. CHANNELS OF BEHAVIOR CH ONLINE - ShopEZ Website - Mobile responsive website - Social media platforms (Instagram, Facebook) - Search engines (Google, Bing) - Email newsletters and promotions OFFLINE - Word of mouth - Friends and family recommendations - Local advertisements and flyers - Retail store partnerships (future)	Extract online & offline CH of BE
	4. EMOTIONS EM BEFORE / AFTER BEFORE - Frustrated - Confused - Unsure - Anxious about payment - Worried about delivery AFTER - Satisfied - Confident - Happy - Relieved - Excited to shop again
